

Norma and Michael Urteaga

Ensenada / Los Angeles, CA

As parents, we chose to take on the task of educating our 3 children.

God opened the opportunity in 2011 and we started, with a little bit of insecurity at the very beginning, but God put Maureen in our way and felt then we were on the right track to decide to choose BCA. Working alongside us was an incredible blessing to have her every step of the way.

All the classes, extracurricular activities, all the fellowship, all the field trips and all the experience that we had throughout the years were great. The idea to be able to enjoy our family day by day was amazing! We won't ever finish thanking God for this opportunity, he has given our family and the experience that He gave us through this BCA family directed by Maureen.

In the beginning of our educational endeavor we were unsure about working with BCA, because of our own ideas and mind set, but as soon we got to know Maureen and she started talking to us about all the meaning of being a teacher for homeschool, she quickly put our doubts at ease and we set them aside. She was knowledgeable and pleasant to work alongside with us throughout all these years.

We educated 3 children with BCA and worked with Maureen for a total of 13 years, and all our 3 children have graduated successfully through BCA. We had our ups and downs but God helped us all by having Maureen as a guide working hand by hand in our school academics with our kids.

As experienced homeschooling parents we know that if someone is interested in homeschool it is a lot of consideration that as a parent and a teacher you should dedicate and decided.

We thank you so much God for putting this option in our lives and we are so grateful to meet Maureen and her family a long our life and academic journey.

Deuteronomy 32:1-4
